

Monty's Hemp Pro is premium plant food!

- ✓ **LOW SALT.** Many commercial fertilizers have high salt content. Too much salt is not good for anything... especially your plants!
- ✓ **HEAVY METALS.** The biggest culprit of heavy metal accumulation in plants is low-grade fertilizers. Our products will not contribute to heavy metal accumulation.
- ✓ **BALANCED.** Nutrition and pH optimized for plant production and ultimately higher yields.
- ✓ **IDEAL NUTRIENT COMBINATIONS.** An unmatched combination of nutrients delivered at the proper time to maximize yield.
- ✓ **ACTIVATED HUMICS.** Our proprietary humics offer enhanced nutrient uptake, better moisture management, and are beneficial for the soil biology.... all for an overall healthier soil! Plus Monty's Liquid Carbon is OMRI listed!

Monty's products have been used by hemp growers across the country with great success. Monty's offers specific products to maximize hemp production. These are products you can utilize with confidence throughout the growing season – from pre-planting to harvest. Ask how Hemp Pro products can make you more successful!
