

Humihance®

Monty's innovative fertilizer coating.

A humic-based fertilizer coating that will quickly and efficiently provide nutrient management benefits without inhibiting the activity of the soil's natural bacteria. Humihance also provides all the natural benefits of Monty's proprietary, activated humic technology to the plant and soil. It is ideal for use when blending all granular fertilizers, and is compatible with a variety of micronutrients and pre-treated fertilizers.

- ✓ It can decrease nutrient loss, while increasing nutrient efficiency availability
- ✓ It does not inhibit the activity of the soil's natural bacteria
- ✓ It can help reduce fertilizer salt toxicity
- ✓ Can improve overall soil health with every granule
- ✓ Can improve organic matter conversion
- ✓ Can reduce soil compaction for better root development and planting conditions
- ✓ Can assist with moisture retention and improve nutrient uptake is non-corrosive
- ✓ Contains 4% Nitrogen

Active Ingredients:

Total Nitrogen (N) 4%
 4% Ammoniacal Nitrogen
 Derived From: Ammonium Hydroxide

Non-plant food ingredients:

Humic Acid 8%
 Derived From: Lignite

GENERAL APPLICATION

During the last step of the blending process, apply 1/2 gallon of Humihance per ton on the fertilizer. This product may be applied to fertilizer pre-treated with Avail®, NutriSphere-N®, or Agrotain®. For crop specific application information, contact your representative.

Available in 55, 275 gallon – and bulk sizes.

Avail and NutriSphere-N are registered trademarks of Verdesian Life Sciences, LLC. AGROTAIN is a trademarks of Koch Agronomic Services, LLC.

“After more than nine years of research with humics, I have found that applying Humihance with Monty's innovative humics technology directly on the fertilizer, increases the fertilizer's efficiency. Farmers can see as much as 20% more efficiency out of their fertilizer application.”

Dr. Ron Heiniger, NC State University
