PRODUCT DESCRIPTION

Apply Monty's Agrihance-S as a starter in furrow, 2 x 2, or when transplanting. Agrihance-S works within the soil profile to promote an optimum environment for quick emergence.

DIRECTIONS FOR USE

Apply Monty's Agrihance-S in furrow on the seed, or 2 x 2 at a rate of ½ to 1 gallon diluted in 3 to 8 gallons of water per acre. Use Monty's Agrihance-S in the setter barrel at a rate of ½ to 1 gallon per acre when transplanting most crops. Monty's Agrihance-S may also be used as a foliar application 1 to 2 quarts per acre. All Agrihance products may be applied through irrigation or drip lines. Consult your dealer for details.

NOTICE

Use within 48 hours of mixing with water, chemicals or other products. Product should be used during the growing season in which it was purchased and should not be carried over from one year to the next.
