

WILL YOU HAVE NUTRIENT DEFICIENCIES THIS SEASON?

Microhance® offers six important nutrients including Nitrogen!

Microhance offers a unique blend of Monty's technology designed to provide nutrients to the plant at any stage of growth, helping to address nutrient deficiencies and maximize the plant's yield potential.

“Microhance is designed to address the nutrient deficiencies that nearly every farmer experiences. Whether it's sulfur, zinc, or manganese: Microhance is the answer.”

JOE DEDMAN, MONTY'S VICE PRESIDENT OF AGRONOMY

FERTILITY

MICROHANCE®

Nutrient Package - Six Important Nutrients

Microhance offers a unique blend of Monty's technology designed to provide nutrients to the plant at any stage of growth, helping maximize the plant's yield potential.

- For the prevention and correction of micronutrient deficiencies
- Foliar apply at any stage of growth
- Apply to any crop being grown
- Great tank-mix flexibility with herbicides, insecticides, or fungicides
- 5 micronutrients used by the plant to enhance metabolism
- Nitrogen to enhance growth and green-up
- Apply during growing season to help prevent stress

Available in 2.5, 30, 275 gallon —and bulk sizes. Please check with your dealer for availability and application rates or visit www.montyplantfood.com.

ACTIVE INGREDIENTS

Total Nitrogen (N)	3%
2.04% Aqueous Ammonia	
0.96% Urea Nitrogen	
Sulfur (S)	1%
Boron (B)	0.25%
0.25% Water Soluble Boron (B)	
Iron (Fe)	0.15%
0.15% Chelated Iron (Fe)	
Manganese (Mn)	0.25%
0.25% Chelated Manganese (Mn)	
Zinc (Zn)	0.25%
0.25% Chelated Zinc (Zn)	
Derived from Aqueous Ammonia, Urea, Sulfuric Acid, Boric Acid, Iron EDTA, Manganese EDTA, and Zinc EDTA	

GENERAL APPLICATION

Foliar apply 1-2 quarts per acre. Can be applied by itself, in addition to a starter, or with many other products including herbicides, insecticides, and fungicides. For crop specific application information, please contact your representative.

"We recommend using Monty's Microhance on our tobacco. It has a lot of micronutrients for plant health — we can see it in the field. Yields on our tobacco were very noticeable at harvest — we saw a very significant difference. I have seen results from Monty's products. They just work. Competitors' products just did not stand up, it was obvious. I believe Monty's Microhance allowed our tobacco plants to better use the major nutrients." *Josh Briggs, Dealer*
