# MONTY'S® LIQUID CARBON™

# **GUARANTEED ANALYSIS**

SOIL AMENDING ACTIVE INGREDIENTS:
Humic Acids29
Derived from Lignite
Total Other Ingredient (Water)98%

## PRODUCT DESCRIPTION

Monty's Liquid Carbon soil conditioner is designed to aid in the breakdown of organic matter. It can improve moisture management in your soil. This product contains Monty's activated humics, which are processed using our proprietary technology. Humic acids may enhance micronutrient uptake.

### **DIRECTIONS FOR USE**

Apply at varying rates depending on purpose or desired result. For general soil conditioning, apply 2 quarts per acre mixed in a minimum 15 gallons of water directly to soil in fall and early spring. May also be applied at the same rate at pre-plant, planting, or for Residue Management. Apply 1 quart per acre when foliar applying with liquid nitrogen or other fertility products. Always conduct soil tests to determine nutrient levels and make needed amendments to assure good fertility levels in your soil. Monty's Liquid Carbon is a supplement to your fertilizer program.

Net Contents - 2.5 US Gal (9.46 Liters) Net Weight - 21 Lbs (9.6 Kg) 8.51 Lbs/Gal at 68° F

www.montysplantfood.com Monty's Plant Food Co. 4800 Strawberry Lane Louisville, KY 40209 800-978-6342 Monty's products are recommended as supplements to your current farming practices and are not recommended to replace the nutrients typically added to the soil. We suggest taking a soil and/or tissue test, have a qualified independent lab analyze the samples to determine nutrient levels in your soils and plants, and then follow the recommendations of a qualified CCA, agronomist, or dealer.

When tank mixing any Monty's products with other farm chemicals, always read and follow the label directions of the chemical(s) you are considering and administer a jar test and/or a strip test before adding Monty's to your tank mix. When mixing with other farm chemicals, tank mix Monty's only after diluting the chemical according to label directions. Knowing the chemicals "mode of action" (block photosynthesis) or metal content (copper based) will help determine the compatibility of Monty's.

### Storage and Handling

Use within 24 hours of mixing with water, chemicals or other products. Keep container closed when not in use. Avoid freezing. Products containing organic materials may settle and should be shaken or stirred if stored. Products containing living organisms should not be stored in direct sunlight or allowed to freeze; should not be carried over from one year to the next; and should be used during the growing season in which it was purchased. Store in a cool, dry place. Refer to the SDS for other safety and handling information.

### **Limited Warranty**

Monty's warrants that this product meets its manufacturing specifications. If it does not, Monty's will, at its option, replace the product or refund the purchase price. In no event shall Monty's be liable for special, incidental or consequential damages or for damages in the nature of penalties, Monty's shall not be liable in any way for claims resulting from any use of this product which is not in strict accordance with all directions, cautions and warnings on the label or labels. For products containing living organisms, this warranty is limited to the "use by date" on the label.

FOR COMMERCIAL USE ONLY, KEEP OUT OF REACH OF CHILDREN, HARMFUL IF SWALLOWED, AVOID CONTACT WITH SKIN, EYES, OR CLOTHING,
