Soluble Potash (K ₂ O)	9%

Derived from Ammonium Hydroxide, Urea, Phosphoric Acid and Potassium Hydroxide

Warning. Harmful if swallowed.
Causes skin irritation.
Causes serious eye irritation

PRODUCT DESCRIPTION

Monty's® 9-18-9 is intended to be used as a supplement to a regular fertilization program and will not, by itself, provide all nutrients required by crops and other plants.

DIRECTIONS FOR USE

Monty's 9-18-9 may be applied in water, liquid fertilizers and suspensions, or with most pesticides. Application rates and dilution factors depend on crop sensitivity, the amount of foliage to be sprayed and the application method. Monty's recommends first taking a soil test or plant tissue test, and having a qualified lab analyze the samples to determine nutrient levels in your soil or plant, then follow recommended applications.

Application guidelines for one growing season in the absence of a soil test or plant tissue test: 3 to 4 gallons per acre.

For Commercial Use

Net Contents - 275 US Gal (1,040.98 Liters)
Net Weight - 3,052 Lbs (1,384.5 Kg)
11.10 Lbs/Gal at 68° F
