<i>Derived from Brown Coal and Algae</i>	
Humic Acids	1.5%
<i>Derived from Brown Coal</i>	
Hydrophobic Fulvic Acids	1.0%
<i>Derived from Brown Coal</i>	
Total Other Ingredient (Water)	94.25%

PRODUCT DESCRIPTION

Monty's HumicPT soil conditioner is designed to aid in the breakdown of organic matter. It can improve moisture management in your soil. This product contains Monty's activated humics, which are processed using our proprietary technology. Humic acids may enhance micronutrient uptake.

DIRECTIONS FOR USE

Apply at varying rates depending on purpose or desired result. For general soil conditioning, apply 1 gallon per acre mixed in a minimum 15 gallons of water directly to soil in fall and early spring. May also be applied at the same rate at pre-plant, planting, or for Residue Management. Apply 1 gallon quart per acre when foliar applying with liquid nitrogen or other fertility products. Always conduct soil tests to determine nutrient levels and make needed amendments to assure good fertility levels in your soil. Monty's HumicPT is a supplement to your fertilizer program.

Net Contents - 2.5 US Gal (9.46 Liters)

Net Weight - 22.7 Lbs (10.319 Kg)

9.10 Lbs/Gal at 68° F
