

MONTY'S SUGARCANE PROGRAM

GIVE YOUR SUGARCANE THE BEST PROGRAM FOR SUCCESS!

Monty's has developed a unique program specifically designed to maximize your sugarcane yields this season. Monty's products...

- ✓ Can be foliar-applied, providing readily available plant nutrients.
- ✓ Include a 7-9-5 analysis with Sulfur, Iron and Zinc.
- ✓ Provide energy for the plant and a food source for microbes. Plus, with Agri-N you get 14% Nitrogen.
- ✓ Promote root development for sustainability and plant growth.
- ✓ Reduce compaction, while promoting root development and moisture retention.
- ✓ Promote conversion of organic matter, releasing nutrients to your field.
- ✓ Can be applied with most herbicides.*

Talk to your Monty's representative today about how our Sugarcane Program can help you be more successful this season. Monty's ... Healthier soils. Healthier crops. Higher ROI!

TARGET PROBLEMS TODAY WITH
MONTY'S PROVEN NUTRIENT SOLUTIONS

MONTY'S SUGARCANE PROGRAM

SUGARCANE GROWING CONDITIONS: Sugarcane grows well in a wide variety of soil types. However, the most suitable growing conditions for this crop are loamy or clay-loam textures – well drained, deep, airy, rich in organic material, and loose, deep fertile soils. Sugarcane does well in flat and semi-flat topography, with pH between 5 and 8.

PROGRAM APPLICATION: Monty's 4-product program is applied at planting (Establishment), preferably in-furrow, then again during the vegetative stages. Apply 2 quarts per acre of each product. The greatest results may be achieved when applied during the Grand Growth Stage. This program is an efficient mixture of essential nutrients designed to stimulate the plant, root system, and soil biology.

Can be applied with most pesticides, fungicides, herbicides, or fertilizer applications.*

- ▶ **C795 Plus/Hay-Now** - A concentrated, versatile liquid plant food with NPK and other essential nutrients that can be used at planting and as a foliar when plant growth is desired.
- ▶ **Monty's Liquid Carbon (MLC)** - Contains Monty's proprietary activated humic technology. It is a soil conditioner designed to reduce soil compaction and improve overall soil health. MLC provides a catalyst for release and conversion of soil nutrients.
- ▶ **Agri-Sweet FG/Agri-N** - A highly refined carbohydrate that is a food source for the soil biology, increasing their numbers and activity which promotes the exchange of sugars, enzymes, and hormones with the plant root system.
- ▶ **Microhance** - Offers a unique blend of Monty's technology designed to provide nutrients to the plant at any stage of growth, helping maximize the plant's yield potential. Microhance is a balance of N, S, B, Fe, Mn, and Zn, designed to prevent or address nutrient deficiencies.

COST OF SUGARCANE PROGRAM

COST OF SUGARCANE PROGRAM†:

275 gal Totes: \$26.48 / 30 gal Drums: \$28.37 / 2.5 gal Jugs: \$31.22

Cost is per application, based on 2 qts/ac each of the 4 products.

To enhance yield goals or if additional nutrients are required (based on soil and/or tissue samples), add **K28 Liquid Potash, Sulfur 15**, additional **Monty's Liquid Carbon**, or **Surge XD** – each at 2 qts/ac. Monty's Programs' product and application rate recommendations are intended to serve as a base to achieving your yield goals. We recommend that soil tests be done prior to planting new crops. In subsequent years, you should take soil tests, along with petiole samples, to determine nutrient levels. Additional products, product substitutions, and/or adjustments to application rates may be necessary based on soil test results, weather conditions, and insect/disease pressure for nutrient and stress management. Consult your Monty's representative for guidance.

For more information, contact your Monty's representative, visit montysplantfood.com, or call 800.978.6342.

Please check your state and local laws to determine whether restrictions on the use of phosphorus fertilizers apply to your operation.

† Prices are subject to change contingent on the market. Please consult your Monty's representative for current pricing.

* For compatibility or specific application information, please refer to product label.
