

PRODUCT TECH SHEET MICROHANCE®

Product Description

Microhance offers a unique blend of Monty's technology designed to provide nutrients to the plant at any stage of growth, helping maximize the plant's yield potential.

Application Benefits

- For the prevention and correction of micronutrient deficiencies
- Foliar apply at any stage of growth
- Apply to any crop being grown
- Great tank-mix flexibility with herbicides, insecticides, or fungicides
- 5 micronutrients used by the plant to enhance metabolism
- Nitrogen to enhance growth and green-up
- Apply during growing season to help prevent stress

Active Ingredients

Total Nitrogen (N)	3%
2.04% Ammoniacal Nitrogen (<i>Aqueous Ammonia</i>)	
0.96% Urea Nitrogen	
Sulfur (S) <i>Sulfuric acid</i>	1%
Boron (B) <i>Boric acid</i>	0.25%
0.25 Water Soluble Boron	
Iron (Fe) (<i>EDTA</i>)	0.15%
0.15% Chelated Iron	
Manganese (Mn) (<i>EDTA</i>)	0.25%
0.25% Chelated Manganese	
Zinc (Zn) (<i>EDTA</i>)	0.25%
0.25% Chelated Zinc	

Application Rates

GENERAL: Foliar apply 1-2 quarts per acre. Can be applied by itself, in addition to a starter, or with many other products including herbicides, insecticides, and fungicides. For crop specific application information, please contact your representative.

HIGH-YIELD: Apply in-furrow, 2x2, or Y-drop at a rate of 3-4 quarts per acre. Monty's high-yield program can vary for crops, application rates and timing. If you are interested in a high-yield program, contact your Monty's representative.

Directions For Use

- Can be applied in-furrow, foliar, 2x2x2, or y-drop.
- Monty's Microhance may be applied in water, liquid fertilizers and suspensions, or with most pesticides.
- Best if used with other Monty's products including starters, foliars, micronutrients, and biologicals. ask your representative about specialized programs.
- See label for more detailed information.

Physical and Chemical Properties

pH: 8.0-9.0 | Water solubility: 100%
Density: 9.00 lbs./gallon | Specific gravity (H₂O=1): 1.078

Monty's products are recommended as supplements to your current farming practices and are not recommended to replace the nutrients typically added to the soil. We suggest taking a soil and/or tissue test, have a qualified independent lab analyze the samples to determine nutrient levels in your soils and plants, and then follow the recommendations of a qualified CCA, agronomist or dealer.

When tank mixing any Monty's product with other farm chemicals, always read and follow the label directions of the chemical(s) you are considering and administer a jar test and/or a strip test before adding Monty's to your tank mix. When mixing with other farm chemicals, tank mix Monty's only after diluting the chemical according to label directions. Knowing the chemical's "mode of action" (block photosynthesis) or metal content (copper based) will help determine the compatibility of Monty's.

FOR COMMERCIAL USE ONLY. KEEP OUT OF REACH OF CHILDREN. HARMFUL IF SWALLOWED. AVOID CONTACT WITH SKIN, EYES, OR CLOTHING.

Information regarding the contents and levels of metals in this product is available on the Internet at: <http://www.aapfco.org/metals.html>
